

Those Left Behind

Duration 10mins

Released 2006

What is it like to teach in a school where pupils simply vanish without trace? How do you feel about losing your best mate at school, something you never thought could happen? 'Those left behind ’ speaks of Glasgow's 'disappeared'.

The Vucaj family lived in the Kingsway community in Glasgow for 6 years, before they were forcibly removed. This short film gives voice to the people of Kingsway and help us understand how deeply integrated and important Asylum Seeking families have become in the communities in which they have settled. It also allows us to see how traumatic & disturbing it is when friends and neighbours dissappear without trace.

Those Left Behind explores the impact that forced detention has upon the communities in which Asylum Seekers have settled.

This is a powerful and moving short film that we would encourage people to see and share.
