

## Deadly Cargo

"Illuminating and inspiring Deadly Cargo by Camcorder Guerillas documents both the secret convoys that carry nuclear weapons around our country and the hardy individuals that devote their time to monitoring them. Everyone should see this excellent example of activist documentary making." Louise Edge - Greenpeace

Deadly Cargo  
Tracking the Nuclear Warhead Convoy  
A Camcorder Guerillas Film, Scotland 2008 (Dur: 18 mins)

Fully assembled nuclear convoys are regularly transported in secret convoys on ordinary roads, day and night right across Britain. How close do they come to you?

Find out the chilling truth about these lethal convoys, how they are tracked by the people in the Nukewatch network and how you can help to stop them.

Featuring music by Zoviet France and Karine Polwart.

Deadly Cargo uncovers how fully assembled Trident nuclear warheads are transported on public roads in secret convoys, passing large centres of population such as Oxford, Birmingham, Manchester, Newcastle, Edinburgh and Glasgow on their journey between AWE Burghfield in Berkshire and RNAD Coulport in western Scotland.

Interviewing grassroots activists, environmental journalists and international disarmament experts as well as local authorities and fire services, about the dangers and illegalities of this deadly cargo, the Camcorder Guerillas offer an insight into an issue usually well hidden from the public. Find out how ordinary citizens in the Nukewatch network track and campaign against the convoy and its deadly cargo &ndash; and how you can help put an end to this nuclear madness.
